As a dedicated computer engineer, I thrive on the cutting edge of technology, where innovation and problem-solving converge. With a passion for designing and implementing robust systems, I excel in translating complex concepts into tangible solutions that drive efficiency and elevate user experiences. My journey in computer engineering has equipped me with a deep understanding of hardware and software integration, coupled with expertise in coding languages and algorithm development.

EDUCATION

Bachelor of Engineering (University of Mumbai)
Pillai HOC College of Engineering and Technology, Rasayani.

11/2022 - 06/2025   *Khalapur, Raigad.*

Polytechnic Diploma (MSBTE)
Pillai HOC Polytechnic, Rasayani.

06/2019 - 06/2022   *Khalapur, Raigad.*

WORK EXPERIENCE

Co-Lead Developer
HyperStellar Technology (formerly C-Tech Continentals)

05/2021 - 09/2021   *Pune, India.*

Achievements/Tasks
- Co-Lead a web development team with my colleague and guided & helped the junior developers about the tasks and projects.
- Build a full-fledged E-Commerce Android application.
- Created an OTP generator with the help of Python and Tkinter GUI.

Contact : Chinmay Mulay - +91 72628 51795

Software Developer Intern
Prodigy InfoTech

07/2024 - 09/2024   *Mumbai, India.*

Achievements/Tasks
- Worked on Machine Learning tasks assigned to me.
- Completed full-stack web development projects.
- Worked as an Android Developer intern and completed the projects and tasks assigned to me.

Contact : Prodigy InfoTech Team - contact@prodigyinfotech.dev
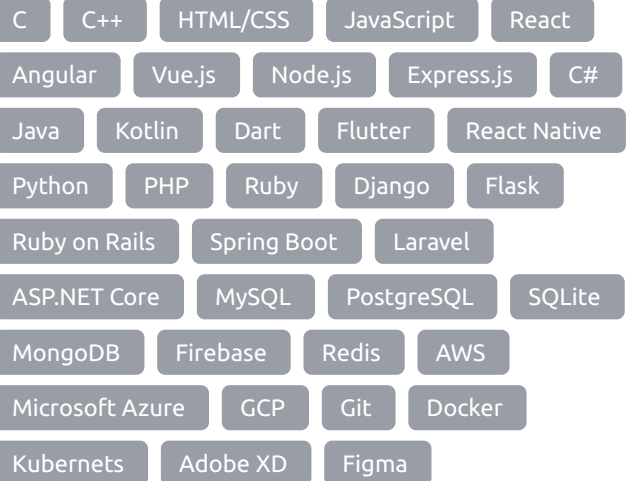

Full-Stack Developer
Outlier

12/2024 - Present   *San Francisco, USA.*

Achievements/Tasks
- Working on training the AI models.
- Outsourcing the datasets and cleaning them.
- Also, working on the various other tasks assigned to me.

Contact : Outlier Team - support@outlier.ai

SKILLS

C   C++   HTML/CSS   JavaScript   React   Angular   Vue.js   Node.js   Express.js   C#   Java   Kotlin   Dart   Flutter   React Native   Python   PHP   Ruby   Django   Flask   Ruby on Rails   Spring Boot   Laravel   ASP.NET Core   MySQL   PostgreSQL   SQLite   MongoDB   Firebase   Redis   AWS   Microsoft Azure   GCP   Git   Docker   Kubernets   Adobe XD   Figma

PERSONAL PROJECTS

Online Student Portal (08/2021 - 04/2022)
- An online student portal Android application made to manage students details such as their admission number, name, branch, results, college fees, etc using React Native.

Text-To-Speech Converter (07/2023 - 11/2023)
- A Text-to-Speech converter using the RVC (Real Voice Cloning) Technology.

CityGo: Online Bus Transportation Service (12/2023 - 05/2024)
- CityGo is an online bus pass application that streamlines the purchase, renewal, and management of bus passes for commuters.

CERTIFICATES

Accenture Apprenticeship by Forage (06/2024 - 06/2024)
This program offered a realistic preview of tasks and challenges in a software engineering role.

AWS Technical Essentials (06/2024 - 06/2024)
It laid the knowledge of AWS services and solutions, and enhancing my ability to effectively utilize AWS for cloud computing tasks and projects.

C Course by Sololearn (07/2024 - 07/2024)
It provided me with a solid foundation in C programming, including key concepts such as data types, control structures, and functions.
